First April Snow Here Since 1961

Tuesday evening's two-inch snowfall was the first measurable April snow here in three years and brought the season's total snowfall to an even five feet.

There was snow Tuesday eve-ting but state Highways Department workmen said the most of the snow fell between 3 and 4 o'clock this morning. A temperavery slippery and 20 highway trucks were dispatched to scat-ter antiskid material for about two hours. A bright sun and ris-ing temperatures soon cleared the roads.

The Budapest meeting may not produce the fireworks, but they do not appear far off. Some Red leaders are frantically seeking to avert a climactic show. The French party is calling for a world meeting soon.

Moscow, which has opposed the idea of a world meeting, may be coming around to the idea that it must be held. It is unlikely, however, that the Red Ruth Chinese would favor a Moscow- Amos sponsored convention.

That Khrushchev is running Timothy out of patience is indicated in Lukes an attack on him published by Marks Red Flag, Peking's theoretical Philippians journal. The attack is signed by Daniels pro-Chinese V. G. Wilcox, sec- James retary-general of the New Zea- Mary land party. "YOU ARE WRONG" Wilcox says Milchail A. Suslov, Soviet party theoretician, voiced the threat during a Moscow meeting with a New Zealand delegation.

When their talks ended, Suslov said, according to Wilcox: "You are wrong. We had hoped you might change. If you change, you will remain within the ranks of the fraternal world parties of Marxism - Leninism. But if you do not change, then, of course, you will be outside the excluded."

This is the picture around the world: ASIA

The powerful Indonesian party has gone over to the Chines side. It disagreed with Moscow on the pace of world revolution echoing the Chinese in pro claiming the time ripe for vio lent revolutionary action is Asia, Africa and Latin America The Japanese party is split, but the majority seems to lean to the Chinese.

State Milk Drops Radioactive Level

HARRISBURG (AP) - The State Health Department says the level of radioactive material in Pennsylvania milk showed a slight decrease at the beginning of the year.

The average level of strontium-90, a radioactive element, was measured at 15.5 picocuries per liter in January, compared with 16.7 picocuries in December, according to statistics released Tuesday. The danger level is in the hundreds of picocuries.
